DATA AND TECHNOLOGY SOLUTIONS

We're people persons who love technology. RESPEC's distinguished professionals bridge technology gaps and design technology strategies and solutions for your business based on the very best fit, result, and value for your unique operation.

Experts in wireless technology design, RESPEC provides full-service data and information technology solutions to public and private clients. Delivering proven, large-scale innovations that broaden capabilities, RESPEC is a leader in mobile-centric trends and technologies that define today's environment and end-user experience. Serving major sectors of business, government, energy, mining, water, environment, and community design, we simplify and update administrative processes by consolidating data and making it more related, accessible, and meaningful.

RESPEC is a premier software professional services company focused on providing solutions as a Microsoft Certified Partner, IBM and HP Business Partner, Oracle Gold/ Peoplesoft Partner and Systems Integrator. RESPEC supports public sector clients by providing direct on site staffing services and project-based solutions in web-based database and software applications, including Java and.NET framework applications, content management systems, and integrated technical solutions. Delivering scalable, custom technology that is flexible and responsive, RESPEC features numerous services and products for business management.
